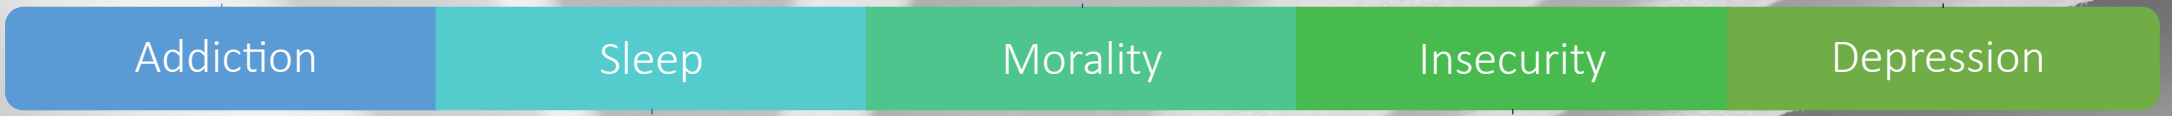
# Nothing Great Comes without a Risk...

Young people are spending too much time in mobile phone and social media

**Many** addicts are losing moral sense as they think everything is easy and fun

Rate of mental health issues like increased stress and anxiety, depression, acting out violently, and low self-esteem are increasing



They keep themselves amused by funny things on social media, even at late night at the cost of their sound sleep

Bullying, Harassment and other **cyber-crimes** make one feel insecure
